

COVID-19 INFORMATION

At **Surfside KIDS** the safety of your child and our faithful volunteers comes first, and we want you to know how we are supporting the guidelines and recommendations from the CDC regarding COVID-19. Below is a list of our interim measures and our plan for reopening safely.

#1 Our rooms look a little bare because we have limited the number of children per room and the number of toys per room in order to ensure efficient and adequate sanitization. We are so excited to use our imaginations as we play with less!

#2 ALL **Surfside KIDS** staff and volunteers will wear face shields or masks at all times when caring for children at SPC.

#4 We ask that all families and volunteers do a temperature check before arriving on site and if you or someone in your family is running a fever we ask that you remain home for the safety of our volunteers and other children in our care.

#4 Children (1st grade to 5th grade) will be provided with a sanitized face shield for all indoor activities.

#5 We understand that not all families will be able to attend SPC in person due to this pandemic. We have been blessed with incredible (written and media) resources for strengthening your family's faith, so please reach out by phone or text 559-259-4709 or by email khann@surfsidepres.com. We would love to support you any way we can as you lead your family.
